

Intervention Simulation Results

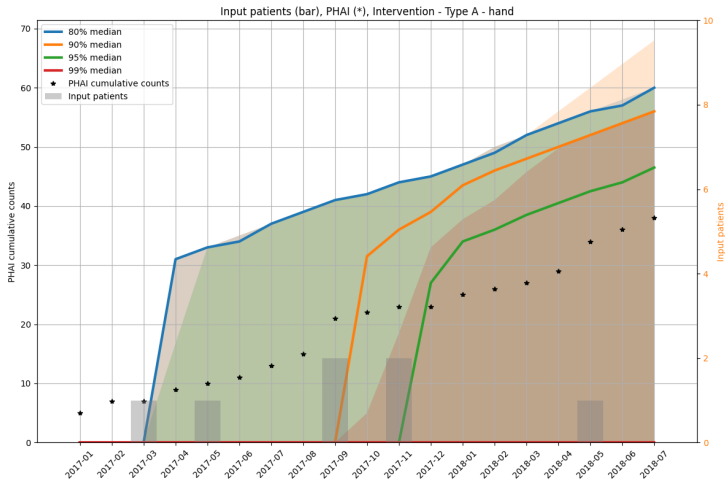

Sol Kim

July 1, 2025

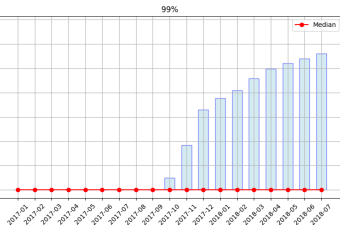

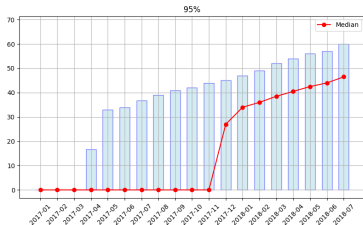

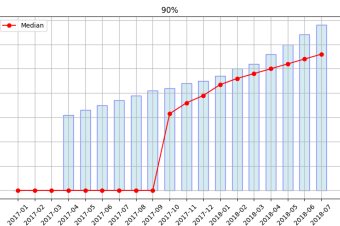

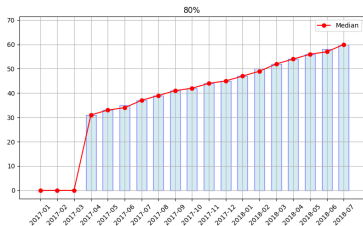

Overview

- ▶ Simulation for types A and B
- ▶ Interventions: Hand hygiene, Cleaning, Isolation
- ▶ Visualization of cumulative sum medians and IQR

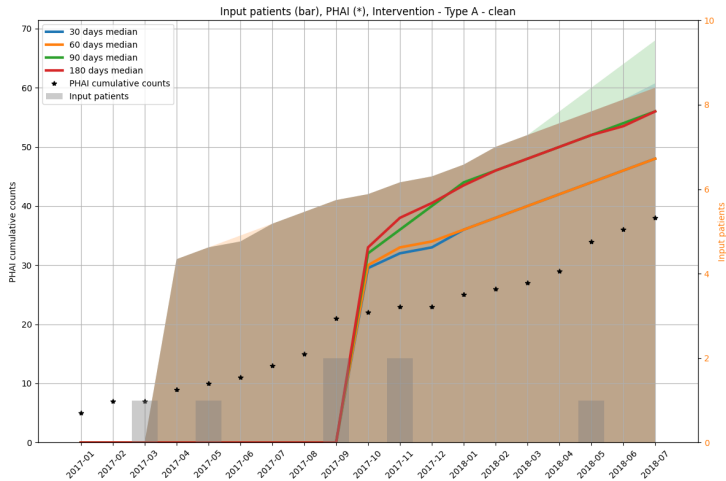

Type A - Hand Hygiene

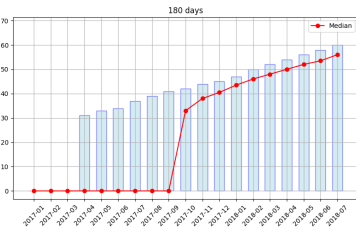

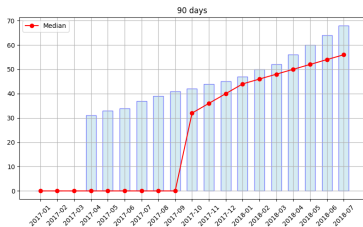

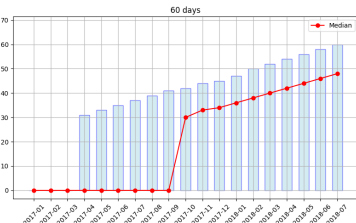

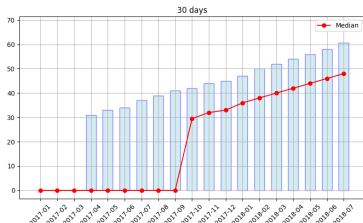

Type A - Hand Hygiene Boxplot

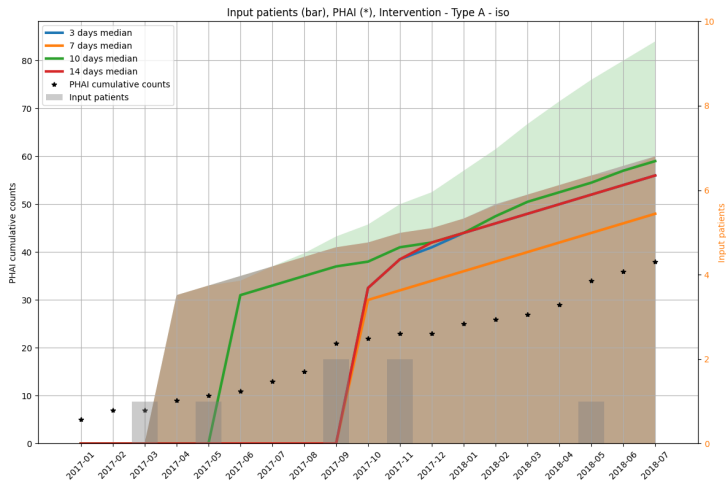

Type A - Cleaning

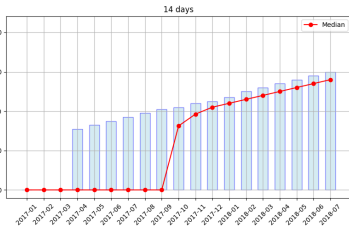

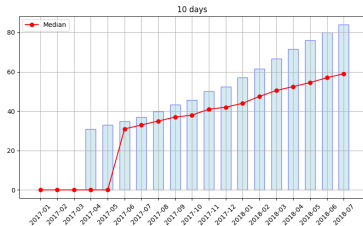

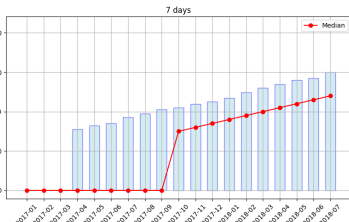

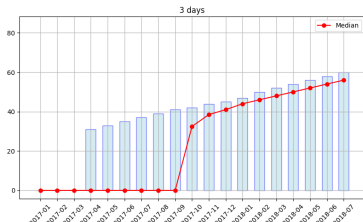

Type A - Cleaning Boxplot

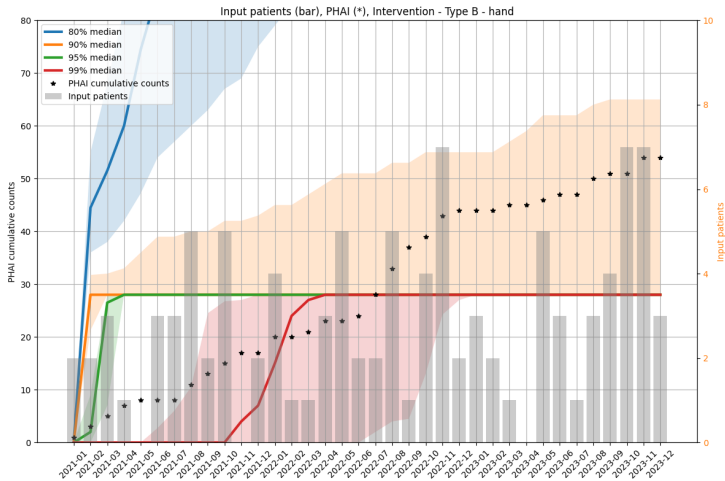

Type A - Isolation

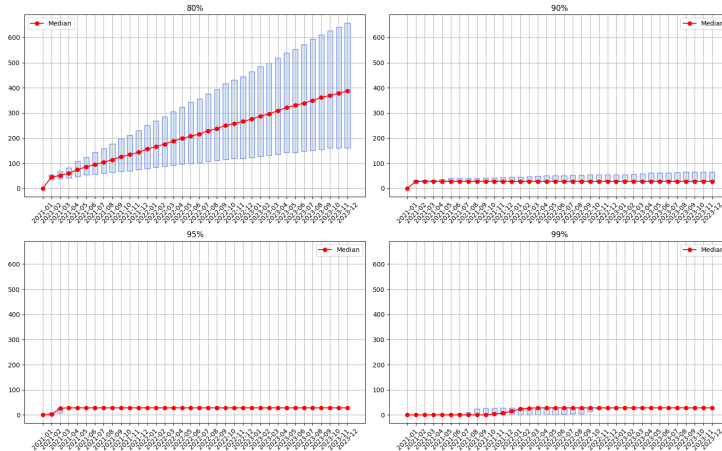

Type A - Isolation Boxplot

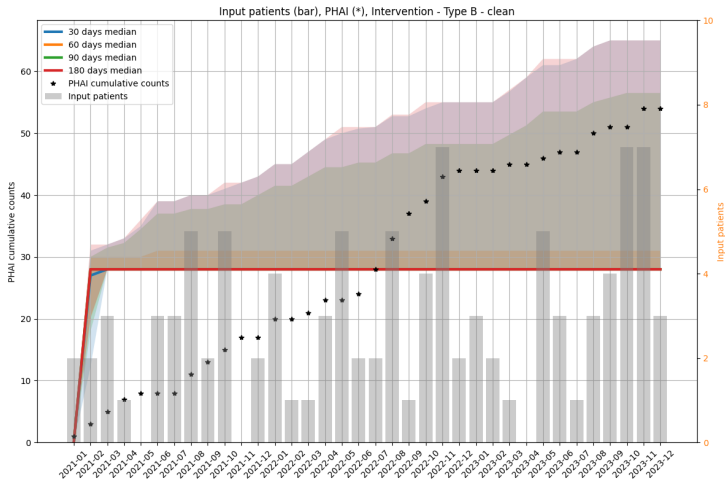

Type B - Hand Hygiene

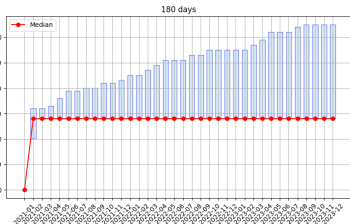

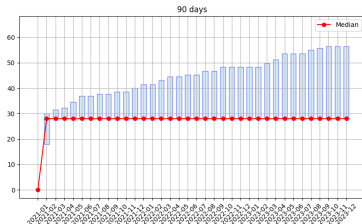

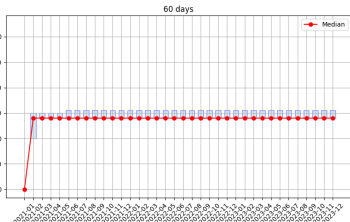

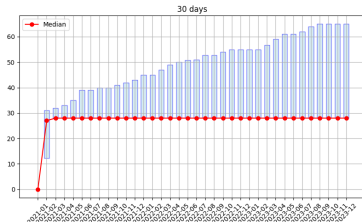

Type B - Hand Hygiene Boxplot

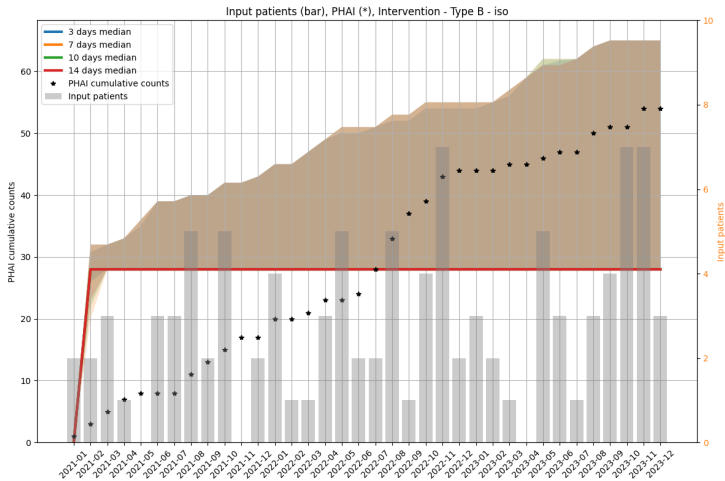

Type B - Cleaning

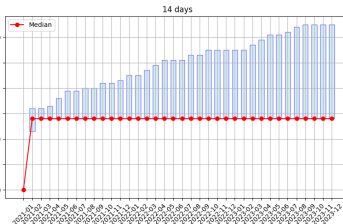

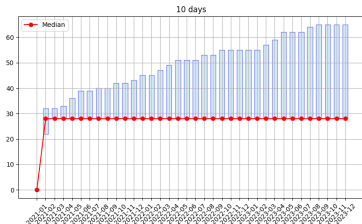

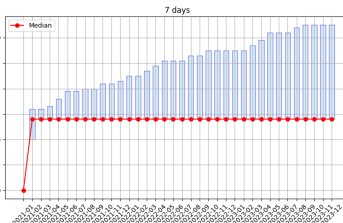

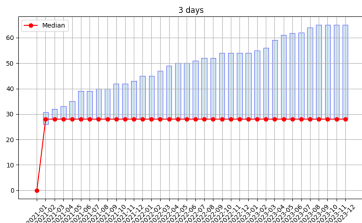

Type B - Cleaning Boxplot

Type B - Isolation

Type B - Isolation Boxplot

Summary

- ▶ Hand hygiene: strong early impact
- ▶ Cleaning: more sustained, gradual effect
- ▶ Isolation: rapid effect, important for outbreak containment
